

## (Carleton/Davenport/Shickley (aka CDS) Water Quality Sub-Area)

The rules being implemented for this sub-area include:

- ⦿ Required Operator Certification Training by March 15, 2015 starting ASAP.
- ⦿ Require completion of initial operator practice report at training class.
- ⦿ Require Operators to collect a water sample from all wells to be analyzed for nitrates by September 15, 2015.
- ⦿ Establishment of “Demonstration Field” by November 1, 2015.
- ⦿ Soil Sampling for nitrates is required on “Demonstration Field” if adding nitrogen fertilizer prior to 2016 crop season, and follow laboratory recommendation based on yield goal.
- ⦿ Irrigation Scheduling is required on Demo Field for 2016 crop season.
- ⦿ Annual report required on “Demonstration Field” by April 1, 2016.
