

Agenda Item #3

Variance Request

NE¼ SE¼ 28-7N-10W

Janyce Fricke owns a high capacity well G-073244 which has only been used to put water into 2.6 surface acre pond. The well is registered at 1000 gpm, but only bowled to produce 250. The well was intentionally drilled to only 91 feet, other wells in the area go to 180 and 200 feet. The well is used to pump water into the pond 4 to 5 times per year. She requests a variance to the metering requirement as the well is not used for irrigation.
