

## **Projects and Planning Committee**

### **Agenda Item # 13a**

#### **Action on Fairbury Tree Restoration Project**

City of Fairbury is asking for up to \$10,000 for a tree restoration project at Crystal Springs which Laura Bedlan will explain the benefits and reasons for the project at the projects committee meeting. Through our Community Tree Resources Assistance Program, we can help fund up to \$10,000. The request does meet the requirements for the Tier One funds, so staff recommends approving the Community Tree Assistance Program for a max of \$10,000
