

Scott Elting transfer request

SW¼ 18-3N-02W to the N½ NW¼ 19-3N-02W Thayer County

Mr. Elting would like to use existing irrigation well G-067311 in the SW¼ 18-3N-02W to transfer water for irrigation to the N½ NW¼ 19-3N-02W.

G-113879 is located on a half section of land owned by Mr. Elting and is used to irrigate a small 48-acre pivot. The well log has gravel beginning at 16 feet and extending to the bottom of the well at 120 feet. Static water is at 65, pumping level is at 75. The area is in the moderate risk aquifer, as noted in the JEO Aquifer Report. The well isn't deep but there is about 55 feet of saturated aquifer. The well is registered at 450 gpm.
