

WR Inc transfer request  
NW¼ 28-4N-01E to the S½ SW¼ 21-4N-01E Jefferson County

WR Inc would like to use existing irrigation well G-087949 in the NW¼ 28-4N-01E to transfer water for irrigation to the S½ SW¼ 21-4N-01E.

G-087949 is located on quarter section of land owned by WR Inc and is used to irrigate a 161-acre pivot. The well log has gravel beginning at 18 feet and extending to the bottom of the well at 220 feet. Static water is at 93, pumping level is at 104. The area is in the moderate risk aquifer, as noted in the JEO Aquifer Report. The well is deep and has around 130 feet of saturated aquifer. The well is registered at 900 gpm.
